Welcome

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives.

Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges.

Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide.

About Webinar

Scientex Conferences is renowned for organizing high-impact conferences, meetings, seminars, and workshops with exceptional speakers from across the globe. We create invaluable networking opportunities for professionals and organizations to elevate their research and expand their influence on a global stage.

The **2nd International Webinar on Neuropsychiatry**, scheduled for **November 18-19, 2026**, will bring together leading experts in the field to explore the latest advances in neuropsychiatric research and treatment. This virtual event promises a comprehensive platform for knowledge exchange and professional development, offering a unique opportunity to connect with over 50+ specialists in the field.

Attendees will gain insights into innovative neuropsychiatric treatments, emerging research, and collaborative solutions to address the complex challenges in this discipline. Participants will also receive an e-certificate of attendance to recognize their involvement in this prestigious event.

We look forward to your participation in this exceptional learning experience!
